DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:

Proper sectional headings have been omitted

Specific claim numbers in the specification are improper.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "preferably" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3765

5. Claim 1, as best understood, is rejected under 35 U.S.C. 102(b) as being anticipated by Imamura (5802831).

Imamura teaches a method for operating a drafting arrangement containing a front pair of rollers and a rear pair of rollers having a nip line, a fiber end being present for starting up the drafting arrangement, wherein that before drafting occurs, the fiber end is brought to a predetermined distance from the nip line of the rear rollers (Figure 5).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Anderegg et al (6691501) and Nakayama (6453656) both teach what is well known in the art.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shaun R. Hurley whose telephone number is (571) 272-4986. The examiner can normally be reached on Mon - Fri, 8:00 am - 4:00 pm.
